📇 PROFESSIONAL SUMMARY

Professional Summary: Dynamic Full Stack Web Developer with strong expertise in the MERN stack, including proficiency in JavaScript, Node.js, and React.js. Adept at creating scalable, user-friendly applications and optimizing backend components. Demonstrates an impressive ability to leverage Generative AI and quickly adapt to new technologies. Proven problem-solving skills and a commitment to fostering seamless collaboration in team environments.

💻 PROJECTS

1. CareRx | ⊕ | ⚙
JavaScript | Responsive Web Design | HTML5 | CSS3 | Git

- Developed an online platform similar to 1mg.com, allowing users easy access to buy pharmacy products from home.
- Implemented user authentication, ensuring secure access to platform features.
- Designed a user-friendly interface with responsive design for mobile and desktop devices.
- Built features like product sorting, filtering, and cart management for seamless user experience.
- Used JavaScript, HTML, and CSS for dynamic and aesthetically pleasing front-end development.

2. My Portfolio | ⊕ | ⚙
HTML5 | CSS3 | JavaScript

- Designed and implemented a responsive portfolio website using HTML, CSS, and JavaScript to demonstrate foundational web development skills.
- Developed a clean and visually appealing UI with a navigation bar, footer, and project highlight cards for seamless user experience.
- Ensured cross-device compatibility by implementing responsive design techniques.
- Integrated social media links to facilitate easy connections with visitors.
- Focused on modern front-end development practices to create an engaging online portfolio presence.
